Product(s): Crown Moldings

6310	
6312	
3 3/4" Crown Molding	

Description: Trim-Tex Crown Moldings are available in a variety of decorative shapes. These decorative trims add style and elegance to your interior finishes while eliminating expensive callbacks and time consuming coping.

Advantages: Qualifies for LEED® points. Designed with built in expansion control. Made from shrink, warp and mold proof PVC; unlike the properties of wood. Seamless look without the need for coping.

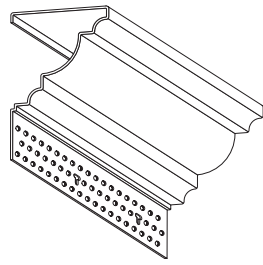

Limitations: Product is designed for interior use only.

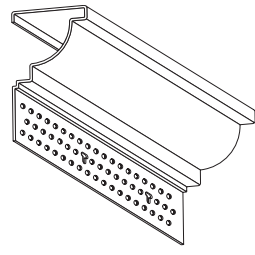

Applicable Standards: Rigid PVC products made by Trim-Tex meet ASTM specifications D3678-97, D1784-03, C1047-99 and achieve a Class A rating for flame spread and smoke developed when tested under ASTM E84-10.

Surface Characteristics: Trim-Tex products are made from PVC. PVC does not support combustion and is self extinguishing when the source of flame or heat is removed.

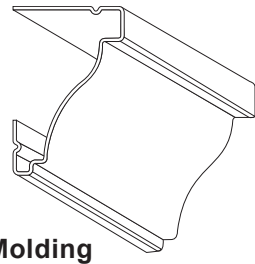

Installation: Cut the bead to length and dry fit. Install with Trim-Tex 847 Spray Adhesive, #700 / 710 Adhesive Caulk and 1/2" divergent staples. Detailed installation and miter instructions are included with each product.

Finishing: Use #700 Adhesive Caulk to install. To improve the bondability of drywall compounds, textures, & plaster products to any bead, use MUD-MAX Drywall Compound Additive. Priming is not required. Always use a high quality paint. North Safety Products are distributed by Trim-Tex.
