CGC

IT'S YOUR WORLD. BUILD IT.™

BUILT FOR PERFORMANCE. PRINTED FOR SIMPLICITY.

At CGC, our commitment to creating high quality gypsum panel products is only matched by our dedication to fostering jobsite efficiency and safety. It's the reason we've begun printing Underwriters Laboratories Inc. (UL) Type Designations in the field of our panels. By making them more identifiable to contractors and installers, you can be sure that you quickly find the information you need to get the job done right the first time.

Printing in the field also makes it easier for code officials to identify the panels by their designation. Even after the joints are finished, this will confirm that the right panels are installed in the correct locations, ensuring the integrity of the building and the safety of its occupants.

	PRODUCT NAME	PANEL THICK-NESS	FIELD PRINT MESSAGE - REPEATED EVERY FOUR FEET, 12-15 INCHES FROM THE LONG EDGE	FIRE RESISTANCE	ENHANCED FIRE RESISTANCE	MOULD RESISTANCE	MOISTURE RESISTANCE	SAG RESISTANCE	ABUSE RESISTANCE	IMPACT RESISTANCE
