Product(s): Decorative Chair Rail Style 671

Decorative Chair Rail Style 671

Stock #	Length	Pcs/Box
67110	10'	20

Description: This Decorative Chair Rail is designed to be mounted flat to the drywall surface. A great way to add an accent without building up additional layers of drywall. The bead is 1 1/2" wide and can be used on drywall or as a casement around windows and doors.

Advantages: Qualifies for LEED® points. Designed with built in expansion control. Made from shrink, warp and mold proof PVC; unlike the properties of wood. Seamless look without the need for coping.

Limitations: Product is designed for interior use.

Applicable Standards: Rigid PVC products made by Trim-Tex meet ASTM specifications D3678-97, D1784-03, C1047-99 and achieve a Class A rating for flame spread and smoke developed when tested under ASTM E84-10.

Surface Characteristics: Trim-Tex products are made from PVC. PVC does not support combustion and is self extinguishing when the source of flame or heat is removed.

Installation: Cut the bead to length and dry fit. Install with Trim-Tex 847 Spray Adhesive, #700 / 710 Adhesive Caulk and 1/2" divergent staples. Detailed installation and miter instructions are included with each product.

Finishing: Use #700 Adhesive Caulk to install. Finish mudding, sanding and painting as you normally would. Priming is not required. Always use a high quality paint. For ultimate bond, add Mud-Max to your mud compound.

Accessories: #700/710 Adhesive Caulk, 847 Spray Adhesive, Staple Guns and Divergent Staples, Trim-Tex Sanding Blocks & Abrasive Products, Mud-Max Drywall Compound Additive, North by Honeywell -Safety Products distributed by Trim-Tex
