

# Pattern Layouts

Decorative ceilings to create distinctive spaces

## PATTERNS

Create unique patterns, repetition and movement throughout your space. Break away from the routine and enhance the visual experience in your area. Rockfon® has the ceiling solution to bring your design to life.

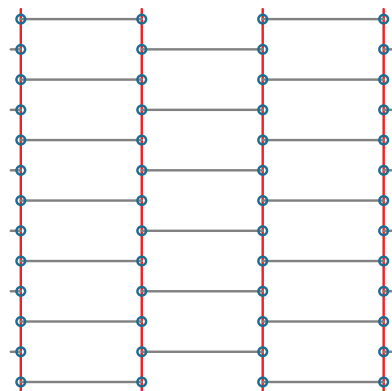

### Staggered Pattern

#### Panels

2' x 4'

#### Suspension System

- = Main runners
- = 4' Cross tees
- = 1493 Clip

Bring interest to your ceiling designs, change the mood and perception of your space.

## FRESH IDEAS FOR YOUR SPACE

Sometimes, a step away from convention can transform a space into a dynamic area to work, discover and thrive. While the standard grid ceiling layout can be best for some applications, a fresh creative approach can help bring new energy to a room. The following drawings are just a few of the layouts that are achievable with Rockfon acoustic stone wool ceiling panels, metal ceiling panels and Chicago Metallic™ suspension systems.

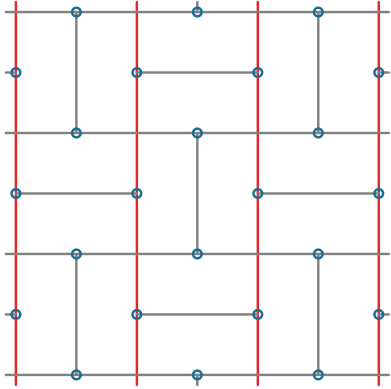

### Basket Weave Pattern

#### Panels

2' x 4'

#### Suspension System

- = Main runners
- = 4' Cross tees
- = 1493 Clip

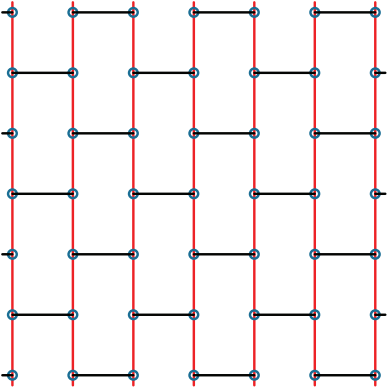

### Brick Pattern

#### Panels

2' x 4'

#### Suspension System

- = Main runners
- = 2' Cross tees
- = 1493 Clip

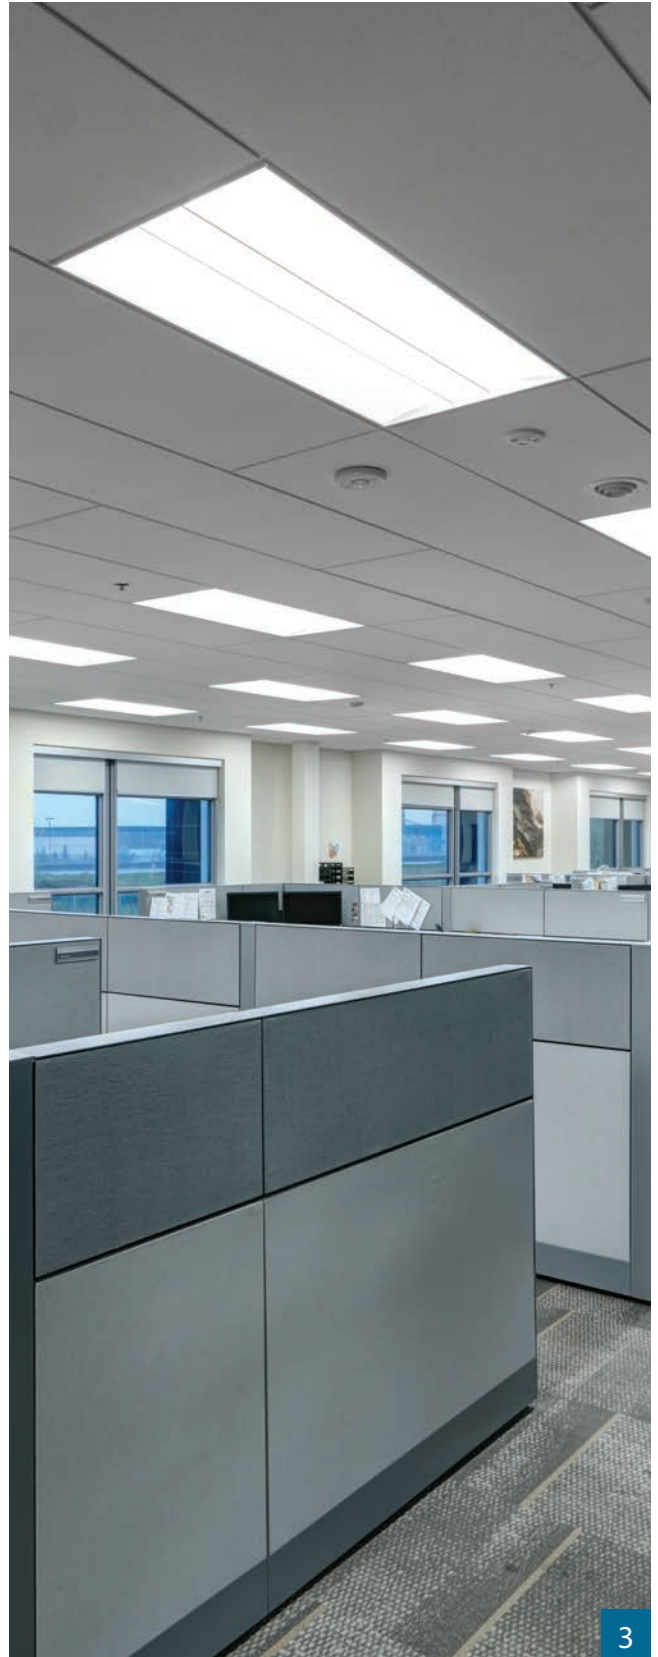

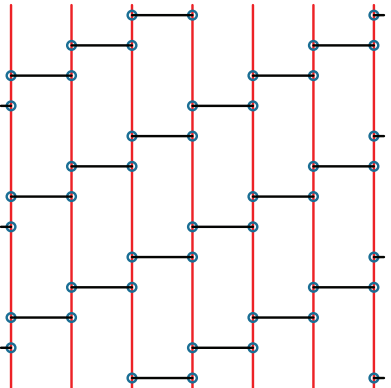

### Walking Brick Pattern

#### Panels

2' x 4'

#### Suspension System

- = Main runners
- = 2' Cross tees
- = 1493 Clip

4500/4550  
Ultraline®

## CREATE YOUR STAGGERED PATTERN USING THE UNOPPOSED TEE CLIP

The 1493 Unopposed Tee Clip allows for greater flexibility in design using standard Rockfon ceiling components. This results in creative, unique and interesting ceiling layouts, while controlling costs. Taking the place of a cross tee at the intersection of two grid components, the 1493 Clip maintains the connection strength required by the International Building code (IBC). The IBC requires connection strengths of suspension systems' intersections to be a minimum of 180 pounds. The 1493 Unopposed Tee Clip exceeds this requirement, while maintaining compliance with ASTM E580.

When installing within seismic areas contact our Technical Service department for support by emailing [cs@rockfon.com](mailto:cs@rockfon.com), or calling **800-323-7164**.

We believe our acoustic stone wool and metal solutions for ceilings and walls are a fast and simple way to create beautiful, comfortable and safe spaces.

Easy to install and durable, they protect people from noise and the spread of fire. They are our way of making a constructive contribution towards a sustainable future.

Create and Protect is what drives us. It means putting people first, sharing success and maintaining trust.

It's our rock-solid promise to you. At Rockfon, Create and Protect is what we do - and it's inspired by you.
