

SUBMITTAL SHEET

Product: Jumbo Double Archway Splayed Corner Bead

Description: Trim-Tex Jumbo Double Archway Splayed Corner Bead is designed to finish irregular splayed arched corners. Common applications include eyebrow windows or barrel vaults intersecting a cathedral ceiling, and groin vaulted ceiling details with a multitude of intersecting arches.

Advantages: The extra-wide mud flanges are a full 1 3/4" wide. Can finish from a 12" inside to a 12" outside radius. Made from rust proof, dent resistant PVC to reduce jobsite and handling damage.

Limitations: Product is designed for interior use.

Applicable Standards: Rigid PVC products made by Trim-Tex meet ASTM specifications D3678-97, D1784-03, C1047-99 and achieve a Class A rating for flame spread and smoke developed when tested under ASTM E84-10.

Surface Characteristics: Trim-Tex products are made from PVC. PVC does not support combustion and is self extinguishing when the source of flame or heat is removed.

Installation:

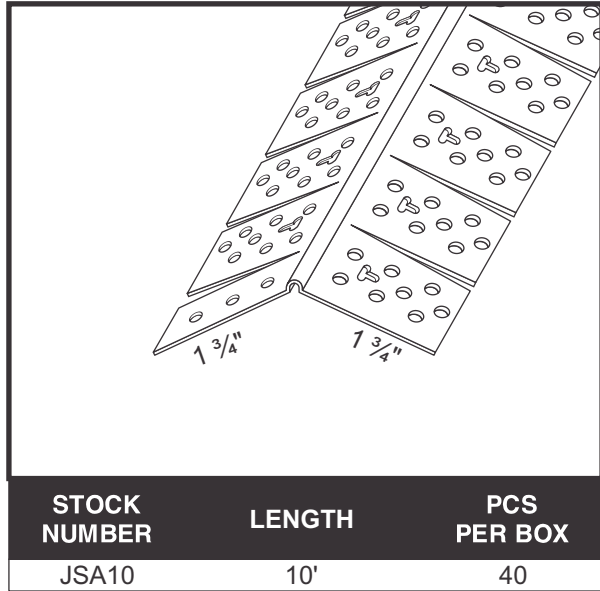

Cut the bead to length and dry fit. For ultimate bond spray a coat of 847 on the mud legs and the drywall and staple the mud legs into place every 6"-8" with 1/2" long staples.

Finishing: To improve the bondability of drywall compounds, textures & plaster products to any bead, use MUD-MAX Drywall Compound Additive. Priming is not required. Always use a high quality paint.

Accessories: 847 Spray Adhesive, Staple Guns and Staples, Trim-Tex Sanding Blocks & Abrasive Products, Mud-Max Drywall Compound Additive, North by Honeywell -Safety Products distributed by Trim-Tex.
