

SUBMITTAL SHEET

Product(s): Trim-Tex Magic Corner Expansion Bead

Description: Trim-Tex Magic Corner Expansion Bead is designed to prevent cracks and finish any inside drywall corner where movement is an issue.

Advantages: Features a co-extruded flexible PVC center with expansion control that eliminates edge cracking on all off angle walls and vaulted ceilings. Up to 3/8" in controlled movement. Made from rust proof, dent resistant PVC to reduce jobsite and handling damage. Does not contain cellulose, a potential food source for mold

Limitations: Product is designed for interior use.

Applicable Standards: Rigid PVC products made by Trim-Tex meet ASTM specifications D3678-97, D1784-03, C1047-99 and achieve a Class A rating for flame spread and smoke developed when tested under ASTM E84-10.

Surface Characteristics: Trim-Tex products are made from PVC. PVC does not support combustion and is self extinguishing when the source of flame or heat is removed.

Installation: For long runs, it may be helpful to snap a chalk line as a guide for the Magic Corner Bead. To install the bead, cut the bead to length. Spray the bead and then the drywall with Trim-Tex 847 Spray Adhesive. Immediately apply to the drywall. Once in position, press the legs into place using a Trim-Tex installation tool or the handle of your taping knife. Staple both legs every 6"-8" with 1/2" long divergent staples. Detailed installation instructions are included with each of the product

Finishing: For the ultimate performance, brush in the center of the Magic Corner with an exterior acrylic semi-gloss paint. Always use high quality paints as they bond better and have more flexibility than more inexpensive brands. Do not prime the flexible center of the Magic Corner. If applying primer by spray, try not to spray any primer into the flexible center. The heavier the paint is applied, the worse the paint will perform. Brush in a coat of the final paint color.

Accessories: 847 Spray Adhesive, Staple Guns and Divergent Staples, Trim-Tex Sanding Blocks & Abrasive Products, Mud-Max Drywall Compound Additive, North Safety Products distributed by Trim-Tex.
