

## 1. Identification

maommoadom	
Product identifier	CGC Sheetrock® Brand Machine Mud® Drywall Compound
Other means of identification	
SDS number	61001010007
Synonyms	Joint Compound (Ready-Mixed), Taping Compound, Mud, Finishing Compound
Recommended use	Interior use.
Recommended restrictions	Use in accordance with manufacturer's recommendations.
Manufacturer/Importer/Supplier/	Distributor information
Company name	CGC Inc.
Address	350 Burnhamthorpe Road West, 5th Floor
	Mississauga, Ontario L5B 3J1
	A Subsidiary of USG Corporation
Telephone	1-800-387-2690
Website	www.cgcinc.com
Emergency phone number	1-800-507-8899
2. Hazard(s) identification	
Physical hazards	Not classified.
Health hazards	Not classified.
Environmental hazards	Not classified.
Label elements	
Hazard symbol	None.
Signal word	None.
Hazard statement	None.
Precautionary statements	
Prevention	Observe good industrial hygiene practices.
Response	Get medical attention/advice if you feel unwell.
Storage	Store as indicated in Section 7.
Disposal	Dispose of in accordance with federal, provincial and local regulations.
Other hazards	None known.
Supplemental information	Not applicable.

# 3. Composition/information on ingredients

#### Mixtures

Chemical name		CAS number	%
Kaolin		1332-58-7	< 10
Perlite		93763-70-3	< 10
Attapulgite		12174-11-7	< 5
Composition comments	All concentrations are in percent by wei	ight unless ingredient is a gas.	
	Raw materials in this product contain re for further information.	espirable crystalline silica as an imp	urity. See Section 16
4. First-aid measures			
Inhalation	Dust irritates the respiratory system, an injured person into fresh air and keep p symptoms persist.		
CCC Charter al @ Drand Machine N			

Skin contact	Contact with dust: Rinse area with plenty of water. Get medical attention if irritation develops or persists.
Eye contact	Dust in the eyes: Do not rub eyes. Flush thoroughly with water. If irritation occurs, get medical assistance.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.
Most important symptoms/effects, acute and delayed	Under normal conditions of intended use, this material does not pose a risk to health. Dust may irritate throat and respiratory system and cause coughing.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically.
General information	Ensure that medical personnel are aware of the material(s) involved.
5. Fire-fighting measures	
Suitable extinguishing media	Use fire-extinguishing media appropriate for surrounding materials.
Unsuitable extinguishing media	Not applicable.
Specific hazards arising from the chemical	Not a fire hazard.
Special protective equipment and precautions for firefighters	Selection of respiratory protection for firefighting: follow the general fire precautions indicated in the workplace. Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	Use standard firefighting procedures and consider the hazards of other involved materials.
Specific methods	Cool material exposed to heat with water spray and remove it if no risk is involved.
General fire hazards	No unusual fire or explosion hazards noted.
6. Accidental release meas	sures
Personal precautions, protective equipment and	See Section 8 of the SDS for Personal Protective Equipment.

Methods and materials for containment and cleaning up Large Spills: Scoop spilled materials and recover as much of the product as possible for use. If spillage is unrecoverable dispose according to local, provincial, and federal regulations.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

**Environmental precautions** Avoid discharge to drains, sewers, and other water systems.

## 7. Handling and storage

emergency procedures

Precautions for safe handlingAvoid inhalation of dust and contact with skin and eyes. Minimise dust generation and<br/>accumulation. In case of insufficient ventilation, wear suitable respiratory equipment. Observe<br/>good industrial hygiene practices. Use proper lifting techniques.Conditions for safe storage,<br/>including any incompatibilitiesStore in a cool, dry, well-ventilated place. Store in a closed container away from incompatible<br/>materials. Protect from moisture. Keep away from heat. Do not use if material has spoiled, i.e.,

there is a mouldy appearance or an unpleasant odour. Keep containers closed when not in use.

Filled cartons and pails of joint compound may be stacked a maximum of 3 layers high on a pallet. Pallets may only be stacked a maximum of two high.

## 8. Exposure controls/personal protection

# 9. Physical and chemical properties

Appearance	
Physical state	Semi-solid.
Form	Paste.
Colour	Off-white.
Odour	Low to no odour.
Odour threshold	Not applicable.
рН	7.5 - 9.9
Melting point/freezing point	Not applicable.
Initial boiling point and boiling range	Not applicable.
Flash point	Not applicable.
Evaporation rate	Not applicable.
Flammability (solid, gas)	Not applicable.

## Upper/lower flammability or explosive limits

Upper/lower flammability or explosive limits				
Not applicable.				
0.8 - 1.4 (H2O=1)				
Soluble in water.				
Not applicable.				
0.8 - 1.4 kg/l				
2 g/l				

# 10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	Hazardous polymerisation does not occur.
Conditions to avoid	None known.
Incompatible materials	None known.
Hazardous decomposition products	Above 800°C (1472°F) limestone (CaCO3) can decompose to lime (CaO) and release carbon dioxide (CO2).

## 11. Toxicological information

#### Information on likely routes of exposure

Inhalation	Airborne dust may irritate throat and upper respiratory system causing coughing.
Skin contact	May cause allergic skin reactions especially in individuals with pre-existing skin disease such as eczema. (See Section 16).
Eye contact	Airborne dust may cause mechanical eye irritation.
Ingestion	May cause discomfort if swallowed.
Symptoms related to the physical, chemical and toxicological characteristics	Dust may irritate eyes and mucous membranes of the nose, throat and upper respiratory system causing sneezing and/or coughing.

#### Information on toxicological effects

Acute toxicity

Not expected to be a hazard under normal conditions of intended use.

Components	Species	Test results
Kaolin (CAS 1332-58-7)		
Acute		
Dermal		
LD50	Rat	> 5000 mg/kg
Inhalation		
LC50	Rat	> 2 mg/l, 4 Hours
Oral		
LD50	Rat	> 5000 mg/kg

Skin corrosion/irritation	Prolonged or repeated skin co	ontact may cause drying, cracking, or irritation.		
Serious eye damage/eye irritation	Direct contact with eyes may cause temporary irritation.			
Respiratory or skin sensitisation	n			
<b>Respiratory sensitisation</b>	Not a respiratory sensitiser.			
Skin sensitisation	The product contains a small amount of sensitising substance which may provoke an aller reaction among sensitive individuals after repeated contact. For detailed information, see section 16.			
Germ cell mutagenicity	Data does not suggest that this product or any components present at greater than 0.19 mutagenic or genotoxic.			
Carcinogenicity	This product is not expected t	o increase the risk of cancer.		
ACGIH Carcinogens				
Kaolin (CAS 1332-58-7)		A4 Not classifiable as a human carcinogen.		
Canada - Manitoba OELs: ca	arcinogenicity			
KAOLIN, RESPIRABLE F Canada - Quebec OELs: Ca	RACTION (CAS 1332-58-7)	Not classifiable as a human carcinogen.		
Attapulgite (CAS 12174-1	1-7)	Detected carcinogenic effect in humans.		
IARC Monographs. Overall I	Evaluation of Carcinogenicity			
Attapulgite (CAS 12174-1	1-7)	2B Possibly carcinogenic to humans. 3 Not classifiable as to its carcinogenicity to humans.		
Reproductive toxicity	Not expected to be a reprodu	ctive hazard.		
Specific target organ toxicity - single exposure	No data available, but none expected.			
Specific target organ toxicity - repeated exposure	Not classified.			
Aspiration hazard	Not an aspiration hazard.			
Chronic effects	Prolonged exposure may cau	se chronic effects. For detailed information, see section 16.		
Further information	No additional adverse health	effects noted.		

## 12. Ecological information

#### Ecotoxicity

The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

	, ,	<b>3</b> 1 1	8 8	
Components		Species	Test results

her adverse effects	None exp	ected.		

## 13. Disposal considerations

Disposal instructions	Dispose of in accordance with federal, provincial and local regulations. Recycle responsibly.
Local disposal regulations	Dispose of in accordance with local regulations.
Hazardous waste code	Not regulated.
Waste from residues / unused products	Dispose of in accordance with local regulations.
Contaminated packaging	Dispose of in accordance with local regulations.

## 14. Transport information

## TDG

Not regulated as dangerous goods.

## ΙΑΤΑ

Not regulated as dangerous goods.

#### IMDG

Not regulated as dangerous goods.

Transport in bulk according to Not applicable. Annex II of MARPOL 73/78 and the IBC Code

#### 15. Regulatory information

Canadian regulations

This product has been classified in accordance with the hazard criteria of the HPR and the SDS contains all the information required by the HPR.

# Controlled Drugs and Substances Act

Not regulated.

Export Control List (CEPA 1999, Schedule 3)

Not listed.

Greenhouse Gases Not listed.

Precursor Control Regulations

Not regulated.

#### International regulations

**Stockholm Convention** 

- Not applicable. Rotterdam Convention
- Not applicable. Kyoto protocol

Not applicable. Montreal Protocol

Not applicable.

**Basel Convention** 

Not applicable.

## 16. Other information

Issue date	17-March-2016
Revision date	-
Version No.	01
Further information	Attapulgite: Carcinogenic to experimental animals via a route of exposure not relevant to human exposure per ACGIH.
	Skin Sensitization Potential: This product contains an amount of Triazinetriethanol (THT) (CAS No. 4719-04-4) that is within the approved EPA regulated limits. THT can act as a sensitizer. Numerous human studies with concentrations up to 1% yielded negative (no sensitization) results. However, some results showed positive reactions in concentrations <0.5% mostly in persons with eczema.
	Crystalline silica: Raw materials in this product may contain respirable crystalline silica as an impurity. The weight percent of respirable crystalline silica in this product is < 0.1%. Exposures to respirable crystalline silica are not expected during the normal use of this product. However, actual levels must be determined by workplace hygiene testing. Prolonged and repeated exposure to airborne free respirable crystalline silica can result in lung disease (i.e., silicosis) and/or lung cancer.
	Bucket NFPA Classification: Health: 0 Flammability: 1 Physical hazard: 0
	Hazard Scale: 0 = Minimal 1 = Slight 2 = Moderate 3 = Serious 4 = Severe
NFPA ratings	Health: 1 Flammability: 0 Instability: 0
