To ensure shipment by June 1, 2018 Johns Manville recommends placing orders early. Johns Manville reserves the right to monitor all orders placed between now and the date of increase and limit quantities if necessary.

Johns Manville continues to experience inflation in raw materials and transportation. The Transportation Industry continues to be significantly impacted with a strengthening economy, additional regulatory changes impacting carrier productivity, Carbon taxes imposed by the Provinces and driver shortages.

If you have any questions about the implementation of this increase, please contact your Sales Representative or Account Manager. Thank you for your ongoing support of JM products.
